TRANSMITTAL OF THE 1992 ANNUAL RCRA GROUNDWATER MONITORING REPORT FOR REGULATED UNITS AT ROCKY FLATS PLANT - TCG-103-93

Enclosed are eight copies of the 1992 Annual RCRA Groundwater Monitoring Report for Regulated Units at Rocky Flats Plant in accordance with the requirements of the Resource Conservation and Recovery Act, 40 CFR Part 265, Subpart F and Colorado Hazardous Waste Act Regulation 6 CCR 1007-3, Subpart F. The report includes available groundwater elevation and quality data for the first through four quarters of 1992 and an evaluation of these data as required by CCR 1007-3, Part 265.94(b). Submittal of the report to the regulatory agencies must be made by March 1, 1993 in accordance with 6 CCR 1007-3, part 265.94(b)(2).

Per your telephone conversation with Mark Levin on February 25, 1993, the Geosciences Division has instituted a regulatory compliance self-assessment with the assistance of a subcontractor for the groundwater monitoring program. The self-assessment will include review of existing groundwater programs with regard to compliance with applicable Federal and State regulations concerning well construction and permitting, sample handling and analysis, and regulatory reporting.

If you wish EG&G to deliver the documents to the agencies, please contact Mark Levin at extension 8580 or Sig Jaunarajs at extension 8567.

T. C. Greengard, Acting Director
Environmental Science & Engineering
